

WHITE IS THE NEW WHITE

Presenting WETSTYLE's updated white color

WETSTYLE is happy to announce that starting March 1st, 2018, all WETMAR BIO™ products and white lacquered furniture items will be produced using a brighter "pure white" tone. This new white matches the "Apollo white" color in our W2 product line.

WHY CHANGE?

This change reflects market demand for a more neutral white in comparison to the warm white we have been offering in the past and up to February 28th, 2018.

HOW DOES THE ORDERING WORK?

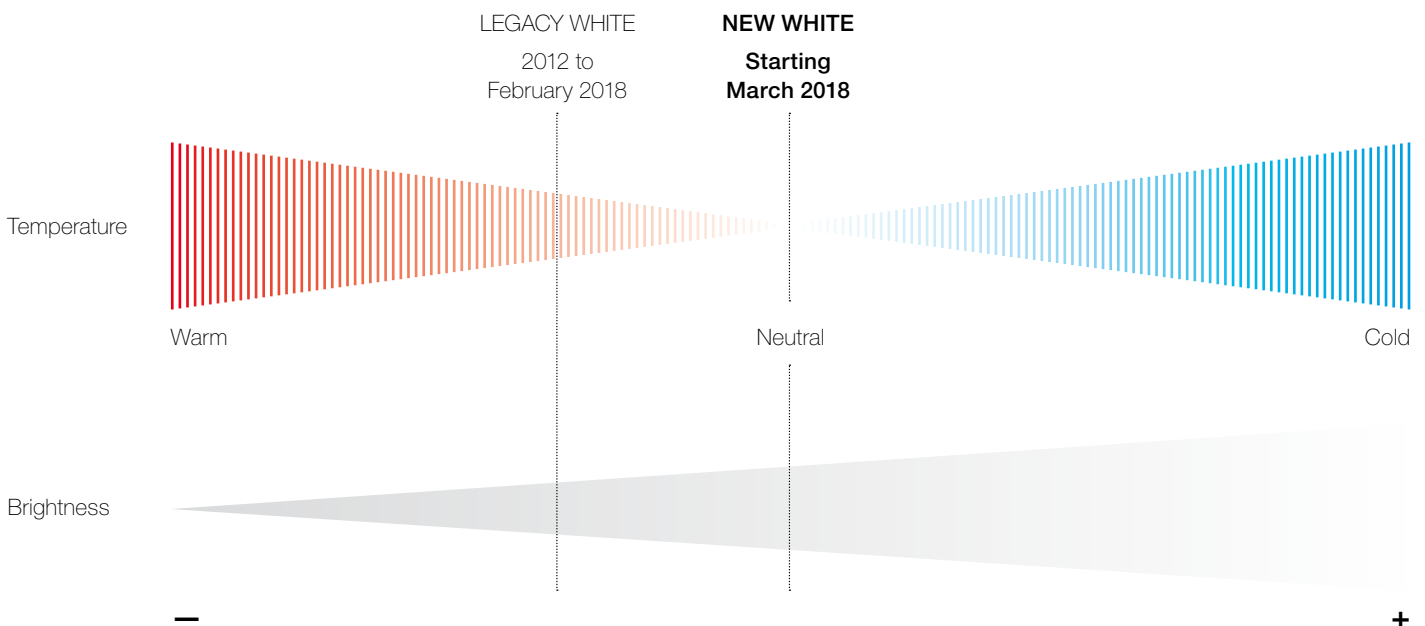

Starting March 1st, 2018, all products using updated color codes **-GA** (White True High Gloss™), **-MA** (White Matte) or **-DA** (White Dual) will systematically be produced in the new white.

NEW WETMAR BIO™ COLOR CODES

GA → White True High Gloss™

MA → White Matte

DA → White Dual

WHAT IS THE LEGACY WHITE?

The Legacy White (formerly known as Wetmar White) is the color WETSTYLE has been using since 2002 and up to February 28th 2018. It has a warmer tone.

WHAT IF I NEED TO ORDER YOUR LEGACY WHITE?

Clients that wish to order the warmer Legacy white or that are in need of a replacement part (for a product that was ordered pre-March 1st, 2018), will still be able to order it as a special order.

As a transition period and until August 31st, 2018, WETSTYLE will be offering this special order option free of charge. However, starting September 1st, 2018, an upcharge of \$500 (bathtubs) or \$200 (washbasins and other articles), per product, will apply to all Legacy White special orders.
